Hongkong, Monday Evening. The week opens with an appearance of rather more life in the movement of trade, but there is little improvement in the general tone of the markets. So long as importers show a tendency to meet the domands of purchasers at figures that connat possibly be remunerative, and cell their goods without a margin of profit, trade must continue to an extent demoralized and in an unhealthy state. With the present low ideas of purchasers. the readiness with which the Chinese are allowed soon being flooded with goods, and the limited demand that at pr sunt exists for shadowing a light & Co. trade for the coming season, there does not scenito be much prospect of any material advance in the prices of manufactured goods for authe time to come, but the reverse, a gradual decline would seem the most reasonable conclusion. The Opium ma ket bas been firm to-day and rates show a slight advance, but only a limited business has been in pro-Green. The closing quotations are new Patou Agent, and General Commission \$655, and \$6221. Benares \$6021. Second sales Paton is fluctuating between \$645 to \$650 for new and \$625 to \$630 for old. The dock would be available for the ropair of the Company's steamers and would be a valuable acquisition; as t was the only one in Shanghai into which they could safely enter.
